

HEALTH INSURANCE

Mercy College students who are enrolled in a health program are required to have health insurance, either through the Mercy College Health Insurance policy (United Healthcare) or through a personal policy.

Students are automatically enrolled in the insurance offered through the College unless the online Health Insurance Waiver form is completed in EMPOWER (the link is directly below the billing detail summary). Students interested in signing up for the offered insurance are advised to contact the Bursar's office to confirm enrollment so the request can be processed the first week of the semester. It can take several weeks to receive the insurance card which must be provided to CastleBranch for confirmation of coverage.

Waiver is available each fall semester and for new students only in the spring and summer semesters.

General information regarding the coverage is available in the Office of the Bursar.

For specific questions regarding coverage information, please contact United HealthCare Customer Service at [1-800-505-4160](tel:1-800-505-4160).
