Optician – Archbold Eye Care

Position Overview

Are you excited about the opportunity to make a positive impression on our patients? Do you believe in the power of building lasting relationships with your clients? If so, we have the perfect opportunity for you!

Location

Archbold, Ohio is a wonderful community with excellent schools and many well-maintained parks. There are attractions for cyclists, railroad lovers, and history buffs. Spend the day exploring Historic Sauder Village, a live history museum and farm that hosts a restaurant, country inn, bakery, campground, and a performance center. Take a bike ride, stroll, or even horseback ride on Ohio's old railroads, thanks to the nation's Rails-To-Trails Conservancy. Looking for a night out on the town? Take a drive to downtown Toledo and explore the nightlife!

Practice Overview

Archbold Eye Care is a local, family-owned practice. We have been providing high-quality comprehensive eye exams and medical eye care to patients in the region for over 40 years. We provide care to generations of families and enjoy seeing our clients grow up right in front of our eyes. We believe in empowering our staff to achieve their goals. If you are looking for a place to ignite your career, and grow both personally and professionally, we just might be the place for you!

What You'll Be Working On

- Excellent communication and relationships with clients, deliver top-notch service
- Comply with all company policies and procedures including HIPAA
- Schedule appointments and referrals
- Review and collect patient medical and ocular history
- Assist patients in selecting the perfect frame
- Properly fit patients for eyewear, perform adjustments and minor repair
- Educate patients on inserting and removing contact lenses
- Order and edge ophthalmic lenses
- Place contact lens and frame orders
- Notify patients when orders arrive
- Review and prepare patient's billing information, submit vision plan claims
- Clean, stock, and maintain supplies and instruments in the optometric area
- Operate auto-lensometer, retinal camera, visual field, and OCT

Qualifications

- Minimum of a High School Diploma or equivalent required
- Licensed Optician preferred, but not required
- One year of experience in optometry, ophthalmology, or medical practice required
- One year of customer service experience required
- Strong attention to detail, ability to multitask, and have strong organization skills
- Strong interpersonal and communication skills
- Demonstrated compassion for patients
- Ability to collaborate and work within a team environment
- Promote and foster a positive work environment

What's In It For You

- Retirement plan with competitive match eligibility
- Paid Time Off and Paid Holidays
- CE allowance or tuition reimbursement eligibility
- Vision care
- Enjoy a set schedule, no evening hours and weekends off!

Email cover letter and resume to resume.archboldeyecare@gmail.com

Previous experience as an RN preferred.

Specific areas require specific qualifications and must meet required skills for unit specific addendum. RESPONSIBILITIES AND MAJOR DUTIES:

- 1. Performs as a team leader of multi-skilled workers to accomplish plan of care for each patient.
- 2. Leads multi-skilled team to provide high quality, cost effective, comprehensive patient care.
- 3. Independently, makes sound judgements and effective decisions relative to patient care.
- 4. Performs all skills on the Registered Nurse Equipment/Skills checklist.
- 5. Performs other duties as assigned.

The above statements reflect the general duties considered necessary to describe the principal functions of the job as identified and shall not be considered as a detailed description of all the work assignments that may be inherent in the job.

Important COVID message

Please note, Trumbull Regional Medical Center is taking additional, necessary preparations to ensure patients can receive compassionate care in a safe, carefully managed environment- with confidence and without fear. Our Safe and Ready program consists of a rigorous [five-point] standard ensuring patient safety, confidence and convenience: Expanded hours will allow previously cancelled procedures to be scheduled as quickly as possible. Any COVID-19 related care takes place in designated areas away from other patients and their families. Emergency Departments are reorganized to be a safe place to treat all emergency patients. A stringent cleaning policy has been implemented throughout the hospital. A strictly controlled visitor and masking policy is required for patient safety. You can rest assured that we have made the necessary preparations to provide care in a safe, controlled and professional way.

Steward Health Care is an Equal Employment Opportunity (EEO) employer. Steward Health Care does not discriminate on the grounds of race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity and/or expression or any other non-job-related characteristic.

Radiologic Technologist

Responsibilities:

- Our Radiologic Technologists (Rad Techs) are committed to delivering a full continuum of care.
- A rare chance to perform medical procedures above and beyond the average technologist's duties.
- Work with the front office team to assist in clerical duties as well as support the back office.
- One-on-one time with our patients will ensure an efficient and customer focused experience. Together, we will make an important difference in healthcare at Concentra.

Qualifications:

- •High School graduate or equivalent
- •Current licensure by the state in which employed, if state offers a licensing certification program
- •Current registration with The American Registry of Radiologic Technologists (ARRT), or have an equivalent Radiologic Technology credentialing agency
- CPR/First Aid Certification (preferred)

Nurse Care Team Assistant

The central role of the Nurse Care Team Assistant (NCTA) is to support the Registered Nurse by documenting the patient encounter and rechecks, and performing some non-clinical patient care tasks; thus allowing the Registered Nurse to focus more directly on clinical care. A Nurse Care Team Assistant's role is limited to patient care, documentation, and efficiency management for the Registered Nurse. The NCTA works under the supervision of a professional nurse, assisting in performing specific duties and activities of daily living in caring for age-specific groups identified in the position responsibilities. Adheres to the facilities compliance plan and to all rules and regulations of all applicable local, state and federal agencies and accrediting bodies. Actively participates in outstanding customer service and accepts responsibility in maintaining relationships that are equally respectful to all.

The Nurse Care Team Assistant observes the Registered Nurse during patient encounters and performs documentation on the Registered Nurse's behalf. Under the direction of the Registered Nurse, the NCTA enters information into the patient's electronic or written chart. All documentation is reviewed and/or edited by the Registered Nurse. Documentation is signed with an attestation by the Registered Nurse, attesting that the NCTA's charting accurately reflects all work, treatment, procedures, and medical decision-making performed by them.

Current Opportunities for our growing business! o Day and Evening shifts available o 7 days/week

As a **Home Health Aide**, you will:

- Be responsible for assisting clients with activities of daily living and other tasks that enable the individual to remain in his/her own home.
- Provide supportive services, such as assistance with personal care, toileting, meal preparation, feeding, laundry and maintaining a clean environment for clients in the home setting.

Job Requirements:

- One year of experience as an aide/personal care assistant in a healthcare setting
- If you have no experience must be STNA, CNA or certified Home Health Aide.
- Desire to work with seniors and other adults with disabilities
- Able to work with minimal supervision
- Able to communicate with clients/families and emergency systems personnel.
- First Aid Certificate
- CPR
- Ability to pass Background Check and drug screen
- Agencies that require this level of education.

Registered Nurse (RN) New Graduate

We are looking for valued employees who will be Champions of the Select Medical Way, which includes putting the patient first, helping to improve quality of life for the community in which you live and work, continuing to develop and welcome new ideas, providing high-quality care and doing well by doing what is right.

This opportunity offers you 12 weeks of training with a dedicated preceptor. A robust and structured program, it integrates both education and preceptorship for a seamless transition into a successful career as a Registered Nurse. The intent of this program is to provide you with a gradual, structured and deliberate orientation to the professional role of the registered nurse.

Qualifications:

- •You are a graduate of an accredited program for Registered Nurses and you have a valid state RN license.
- Possessing a Basic Life Support (BLS) certification.
- Previous hospital experience preferred.
- Having a positive, compassionate and customer-service oriented attitude.

Student Nurse Tech

jmassaro@selectmedical.com

419-318-5700

Qualifications:

- •The position requires proof of completion of the first year/fundamentals of nursing, (or equivalent) of an accredited nursing school.
- •Knowledge of basic nursing techniques and procedures, aseptic practices, and cardio-pulmonary techniques is required.
- •This position requires the ability to communicate effectively, both verbally and in writing, to follow the written and verbal instructions, and to maintain effective working relations with others including patients families, physicians and other hospital associates.
- •BLS required.

Job Duties:

Under the direct supervision of the Registered Nurse the Student Nurse Tech performs procedures, collects and documents demographic and patient data as follows:

- •Vital signs, height, weight, demographic data.
- •Assists patient with personal and daily care: bathing (bed bath, chair at sink, tub, and shower), assists patients with oral hygiene, shaving and hair care.
- •Intake and output, urinary catheter removal, finger stick blood sugars, routine urine and stool specimen collection, ostomy care, emptying drainage receptacles/tubes, bladder scan.
- •Removes peripheral IV's as directed by RN (may not remove any IV's located in antecubital fossa or higher).
- Delivers meals and snacks, feeds patients who are unable to feed themselves, documents oral intake including supplements.
- •Turns, positions immobile patients safely, maintaining proper body alignment. Participates in mobility program.
- •Answers patient call lights and performs services that add to the physical wellbeing of the patient.
- •Transport of the patients to designated areas; transports patients to and from various treatment centers when necessary.

Direct Care Support

Provide services to Children and Adults with intellectual disabilities by assisting with daily living skills at our base facility in Holland, OH. Openings are available on first, second, and third shifts, including every other weekend and holiday. Requirements are: High School Diploma or GED; ability to lift 50lbs.

Rehab Nursing Technician (CNA or LNA)

As a rehabilitation nurse technician, channel the full extent of your knowledge, skills, ambition and experience on a daily basis. Inspire our patients to progress each day as you:

- Use your attention to the little details that have a big effect on each patient's treatment plan.
- Provide direct patient care based on your level of training and competence.
- · Assist an RN or LPN in completing patient-care support tasks.
- Promote the best possible patient satisfaction and outcomes.
- Make a real difference that you can see and feel as you help patients to thrive on a daily basis.

Credentials:

- · Current CPR certification required.
- One or more years of experience within an inpatient general hospital setting preferred but not required.
- Experience with medically complex patients and sub-acute rehab unit patients preferred.
- State-issued C.N.A. or L.N.A. (or similar) license preferred.

Enjoy competitive compensation and benefits that start on day one, including:

- · Benefits that begin when you do.
- · Affordable medical, dental and vision plans provided to meet the needs of full and part-time employees and their families.
- · Generous paid time off that increases with tenure.
- Tuition reimbursement and continuing education opportunities.
- · Company-matching 401(k) and employee stock-purchase plans.
- · Flexible spending and health savings accounts.

About us:

Helping patients regain hope and independence, Encompass Health is a national leader in post-acute care. We operate rehabilitation hospitals and offer home health and hospice care in 36 states as well as Puerto Rico. Following the Encompass Way, we are driven by our core values: We proudly set the standard, lead with empathy, do what's right, focus on the positive, and remain stronger together.

Realize the powerful difference you can make. Take this opportunity to join our team.

Licensed Practical Nurse (LPN)

Full-time: Monday-Friday (8am-4:30pm)

Health Partners of Western Ohio is searching for a Licensed Practical Nurse (LPN) for our Riverside Community Health Center. The LPN assists the Medical Provider in the care and treatment of our patients. To be successful within this role, candidates must have excellent communication skills, be mission-driven, and be willing to embrace the HPWO integrated model of care that utilizes a teambased approach in serving our patient population.

DUTIES AND RESPONSIBILITIES:

Promotes effective and appropriate use of integrated health services at HPWO as part of a "Patient Centered Medical Home" (PCMH) model of care. Performs client assessment utilizing the nursing process.

Documents all nursing care provided according to policy.

Formulates plan of care for clients under direction from providers.

Obtains referrals from other physicians and specialists.

Administers medications as prescribed by the provider.

Performs treatments, procedures as prescribed by the provider.

Performs clinic and outreach related tasks.

Completes patient health screenings including hearing, vision, and all CLIA waived testing.

Maintains stocks of medicines and medical supplies as necessary.

Educates and advises patients on specified medical issues within established parameters.

Performs patient education and discharge instructions.

Completes referrals and schedules tests for patients.
