Drug and Alcohol Abuse/Prevention Policy and Program

Purpose

Mercy College has an ethical and professional duty to students, employees, patients, and to the community to provide an environment that maintains high standards of safety, health, and efficiency. The use, sale, transfer or possession of controlled substances or alcohol by students creates a potential for harm. This policy provides guidelines to deal with actual or potential situations in a systematic manner. An agreement to abide by this policy is a condition of enrollment at Mercy College.

General Statement

It is the responsibility of all students to conduct themselves in a manner consistent with College requirements for maintaining an environment free from threat to person, property, efficiency or reputation because of illegal use, sale, transfer, or possession of alcohol or dangerous drugs as defined by Section 2925.01 of the Ohio Revised Code and United States Code 21, Section 811 and 844.

Policy

1. The use, sale, transfer or possession of controlled substances, alcohol or dangerous drugs, as defined by Section 2925.01 of the Ohio Revised Code during working hours, on clinical assignment or any Mercy organization property is forbidden, and are grounds for disciplinary action including dismissal from the College. The presence of controlled substances and/or alcohol in a student’s physical system during working hours or while the student is on clinical assignment is grounds for dismissal from the College.
2. The illegal use, sale, transfer or possession of controlled or illegal substances off college property or clinical sites constitutes grounds for dismissal from the College.
3. Law enforcement may be notified of illegal sale, use, transfer or possession of controlled or illegal substances required by Section 2921.22, Ohio Revised Code, which states in part, “No person knowing that a felony is being committed shall knowingly fail to report such information to law enforcement authorities.”
4. Mercy College may take any disciplinary action deemed appropriate for violation of this policy. Violation of this policy may result in dismissal from Mercy College.
5. Mercy College is under no financial obligation to assist any student who violates this policy. However, efforts would be made to assist and guide the student in initiating appropriate referral

and rehabilitation.

6. Mercy College will permit the legal use of medication or drugs prescribed by a licensed practitioner if such usage does not adversely affect the student or others. Mercy College reserves the right to define “adversely affect,” and it will do so in consideration of the health and safety of the student and others. The College may, at its discretion and upon consideration of the specific circumstances, take all necessary action (which may include disability accommodation or a range of discipline, as appropriate to those circumstances) when a student is deemed to be adversely affected by the use of legally prescribed medications.
7. In cases in which the faculty or staff member reasonably suspect violations of this policy, these individuals may request a drug screen. The same drug screening protocol outlined in the College’s “Criminal Background Check/Drug Screen Policy and Procedures for Clinical Students” will be utilized. A student’s failure to comply with a request to undergo a drug screen sampling or refusal to sign a consent authorizing testing will result in disciplinary action, which may include dismissal from the College.
8. Students must notify the College of any criminal drug statute conviction (this includes misdemeanor or felony) within five (5) days after the conviction. Mercy College will notify any appropriate government agency entitled to notice within ten (10) days of receiving notice of a conviction.
